

# WEEK 2

## ‘Water Wonders’ Week

Get ready to **make a splash!** This week at BISI Summer Camp, we’re diving into all things water. From creative arts to exciting games, STEM challenges, and even a fun cooking class, our campers will **explore, play, and learn** through engaging water-themed activities. Every day will be filled with hands-on fun, teamwork, and plenty of opportunities to cool off in the summer sun!

**Trip  
to Emirgan  
waterfall &  
Beach (for  
older group)**

### Creative Arts & STEM

Campers will express their creativity with **water painting, tie-dye, and boat-building challenges**. They’ll test their boats in exciting races and see how long they can stay afloat. Our hands-on STEM activities will keep young minds engaged as they explore the properties of water in fun and interactive ways.

## Water Play & Games

What's summer without **slip and slides, water hose and sprinkler games, and team water relays**?

## Swimming Fun

Ready, set, race! Campers will take part in an **exciting swimming competition**, testing their speed, endurance, and teamwork in the water.

Kids will also enjoy **aqua dance in the pool**, moving to the rhythm of the music while splashing around with friends.

## Sports Fun

We're bringing a water twist to classic sports with **water-themed basketball, badminton and football challenges**—keeping campers active and refreshed while they play.

## Hands-on Science & Nature

Campers will **create a mini pond** using a kiddie pool, complete with **aquatic plants, rocks, and toy animals** to set up a small ecosystem. This activity will give them a chance to observe and learn about water habitats in a fun, interactive way.

## Cooking Fun

A delicious twist on water fun—kids will **make and decorate refreshing watermelon boats**, turning their snacks into edible creations!

## Drama & Performance

Creativity takes center stage with **water-themed drama and art activities**, allowing campers to act, imagine, and bring stories to life in fun and expressive ways.

## Gardening & Watering Fun

Campers will also **learn the importance of water in nature** by **watering plants and exploring basic gardening**. They'll see firsthand how water helps plants grow and thrive, adding a refreshing and educational touch to our outdoor activities!

### FISH AQUARIUM USING SHOE BOX

At **BISI Summer Camp**, every week features a unique theme to create an **exciting and dynamic experience** for our campers. This week, we're **making waves** with **Water Week**—a perfect blend of adventure, creativity, and summer fun!
